ABOUT THE ARTIST

Pilar Acosta

Pilar Acosta (Tenerife, Spain) is a contemporary artist whose work explores emotional energy, inner transformation and the connection between matter and consciousness.

Working primarily through gestural and material abstraction, her painting investigates movement, color vibration, and the trace of process as visual language. Her compositions emerge from a dialogue between intuition, lived experience, and a spiritual perception of the world.

Her work has been presented in exhibitions and collaborations in Tenerife, Madrid, Marbella, Milan and Lisbon, and she has taken part in digital-format showcases in Miami and Monaco.

She currently continues her practice from Tenerife, focused on creating works that function as spaces of emotional resonance and transformation.

All works include a certificate of authenticity.

STATEMENT

Pilar Acosta's painting emerges from gesture as an act of presence. Her work does not aim to represent, but to reveal invisible processes: energy, memory, emotion, and transformation. Through layers, material tension, and color dynamics, the artist constructs spaces where the organic and the intuitive engage with deep internal structures. Each piece arises as a field of resonance in which the viewer does not merely observe, but becomes emotionally situated.
